

Viewport Screen

Options

Edit Tools

- 1 Translate:** Translates current selection. If it is empty translates the entire machine.
- 2 Rotate:** Rotates current selection. If it is empty rotates the entire machine.
- 3 Symmetry Tool:** atoms you place are mirrored relative to selected planes. The root atom can be changed.
- 4 Set Machine On Ground:** Set the lowest part of your machine on the ground.
- 5 Erase Atoms:** Used to remove individual atoms.
- 6 Destroy Machine:** Destroys your entire machine

File Management

- 1 Save**
- 2 Load**
- 3 Undo**
- 4 Redo**

Camera

Reset Camera: Returns the camera to its default state.

Misc

Machine Info: Displays atom count, bond count and where the center of mass of your machine is.

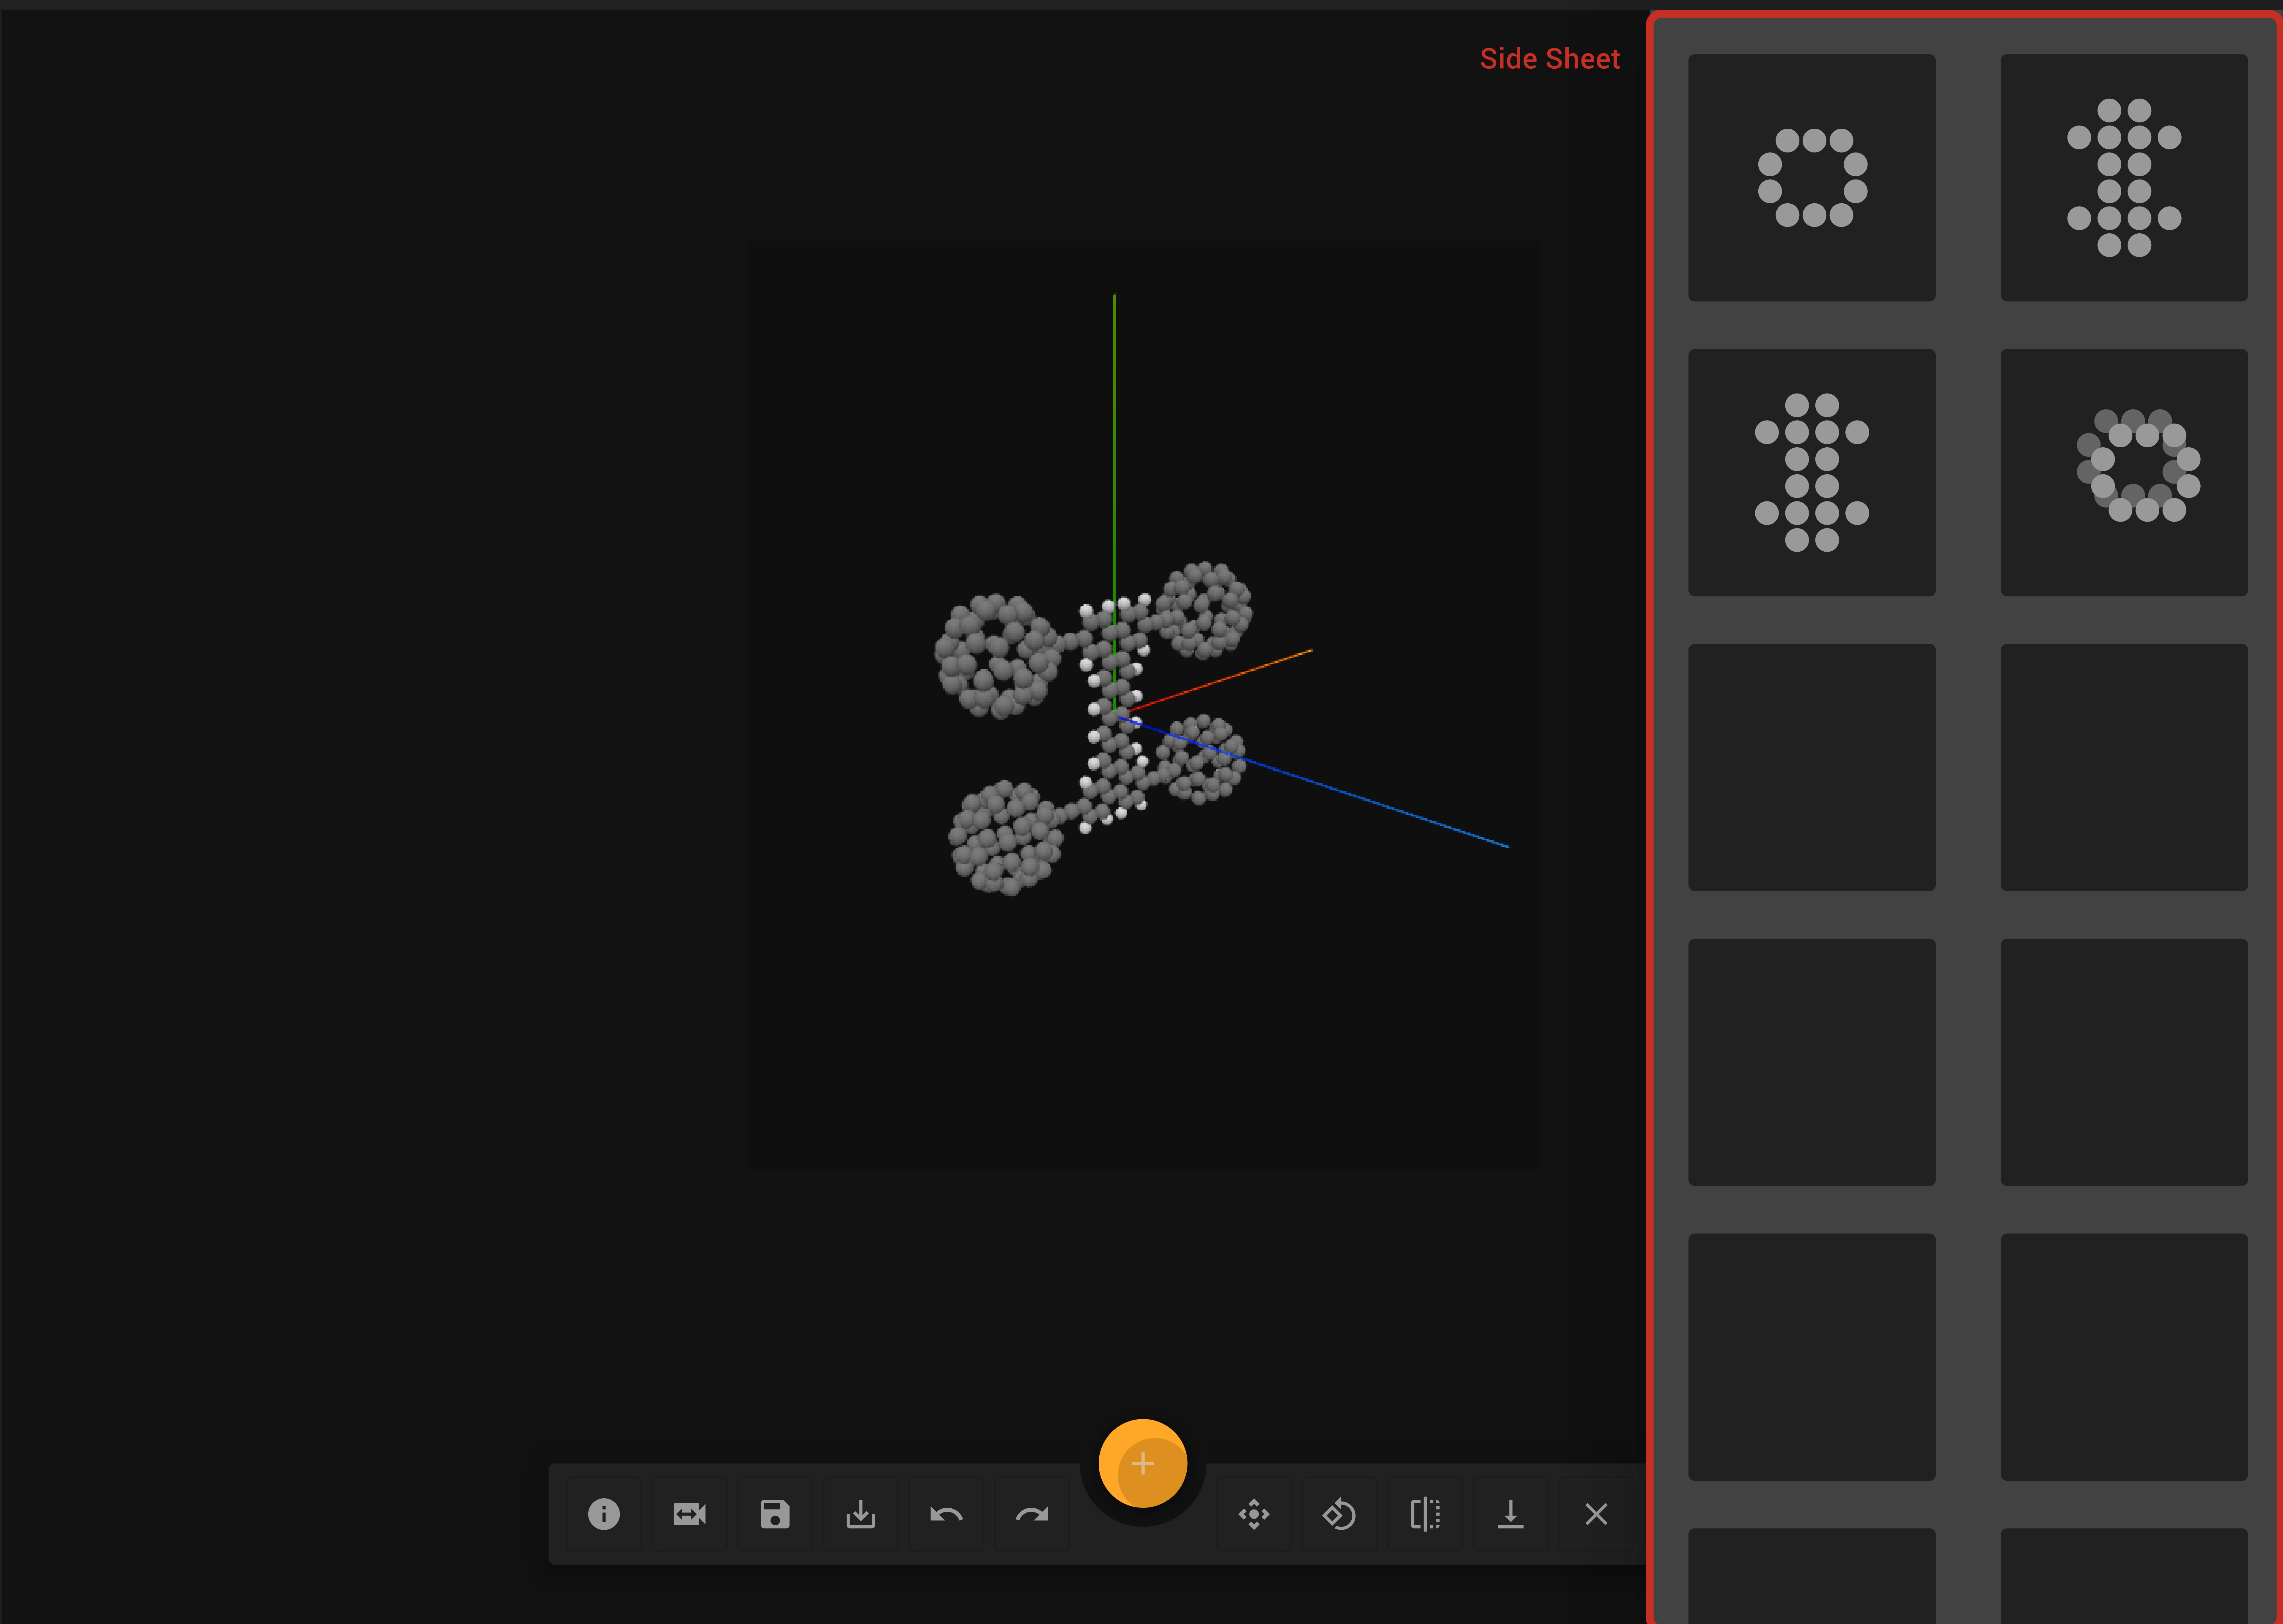

Add

Add: View and select atoms, molecules and pre-defined parts.

Options

Settings: View the application settings.

Side Sheet

Side Sheet

Side Sheet keeps list of atoms, molecules and ready made components. To add a component, you simply drag and drop the desired component from the list on to the Viewport.
